

Join your peers and colleagues for a MOREnetworking Together meeting near you!

We'll cover the latest MOREnet news, including FY08 fees, legislative updates, and some new and exciting service changes! Plus, we need to hear from you. Tell us how we're doing and what we can do better. After lunch, we'll hear about the latest educational technology trends from Schiller's Audio Visual. MOREnetworking Together regional member meetings are open to any faculty and staff at MOREnet member organizations. We encourage Institutional Representatives, Technical Contacts, Administrators and Library Directors all to attend. Feel free to bring anyone else from your organization who'd like to attend.

Locations:
