

Although MOREnet's state funding has been completely eliminated over the past two years, Missouri's schools and libraries have expressed their overwhelming confidence in the MOREnet consortium by continuing their membership subscriptions to the essential services offered by MOREnet. In FY11, more than 98 percent of MOREnet members remained with the consortium, including all public higher education institutions. The chart below shows MOREnet's membership levels over the past three fiscal years, as well as FY12, painting a striking picture of stability and trust, despite increased rates. MOREnet is honored by this level of commitment and is proud to continue to deliver services to its members.
