Most districts have more than **2,000 apps in use** across their student population, but lack complete visibility into what is being used, purchased, and approved.

In September 2024, ESSER funding will officially expire. On average, this equates to a **reduction in annual spending** of over **\$1,000 per student**.

# Today's Agenda

The three R's are relevant throughout the app lifecycle, which we are breaking into three parts:

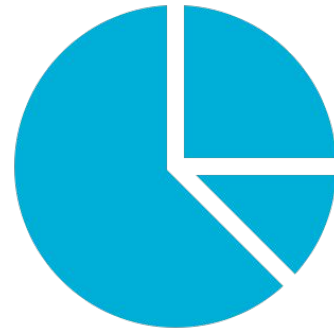

- **Part I: Visibility**
- **Part II: Vetting**
