

Improve Student Outcomes with a Safe, Equitable Edtech Ecosystem Based on Evidence

The right edtech can have huge impact on teaching and learning outcomes. LearnPlatform empowers district leaders to simplify and refine complex edtech ecosystems for transparency, communication, privacy compliance and context-specific efficacy.

UNDERSTAND YOUR EDTECH ECOSYSTEM

Get complete visibility to the tools being accessed by your staff and students, and build a library of available, approved programs for easy communication to teachers and families.

TAKE CONTROL OF YOUR DISTRICT EDTECH

Create workflows that support your district procedures to standardize and streamline teacher requests, edtech vetting, renewal processes, provider requests and more.

DO YOUR OWN EDTECH RESEARCH

Leverage our proprietary technology for ESSA-aligned rapid-cycle evaluation of high-priority solutions to make data-based edtech decisions that maximize academic and financial ROI.

“ We have an ethical commitment that what we’re providing for students and teachers is going to make a positive difference in the learning. You need to do that through evidence. ”

LARA TRIONA
VP of Learning Science, Levered

LOOK FOR EVIDENCE

Evidence matters. Built in consultation with the US Department of Education and the Institute of Education Sciences, LearnPlatform ESSA Evidence Badges enable education organizations and providers to know, show, grow and share trustworthy, valid and ESSA-aligned evidence.

DEEPEN PROVIDER PARTNERSHIPS

Districts and edtech providers need to be on the same team. Through our IMPACT-Ready certification, LearnPlatform provides a common hub for evidence and evaluation that helps districts and providers work together more closely, transparently, and creatively to reach a common goal—improved student outcomes.

HOW CAN WE HELP YOU BUILD A MORE EFFECTIVE EDTECH ECOSYSTEM?
