

MOREnet Cybersecurity Update

Keeper Enterprise Password Manager

- Dedicated support from MOREnet; you can completely manage your own enterprise or be a part (Node) of MOREnet's enterprise with the advantage that MOREnet can transfer and recover password vaults as you need.
- Robust Security, Unrivaled Usability and Local Support
- Zero-Trust Architecture: Every user's data is encrypted on their device, ensuring only they can access it—not even Keeper can.
- End-to-End Encryption: Your data is protected from the moment it's created to the moment it's accessed, across all devices.
- Easy Deployment and Scalability: Get up and running in minutes and effortlessly scale to thousands of users as your needs grow.
- Automated Password Management: Automatically fill passwords, store digital credentials and audit for weak or compromised passwords.
- Bonus! MOREnet's Keeper Enterprise plan also includes a complimentary Keeper Family license for up to five family members with unlimited devices.
- Full members get one free license as part of membership; cost of \$39.96/license per year

Eduroam

- Secure global wireless network
- Students and staff can log into the eduroam network anywhere (using their home institution's credentials) there is an eduroam hotspot <https://incommon.org/eduroam/location-map>
- Builds a community of secure wireless connectivity (college/university; schools; libraries; museums; other hotspots)
- Provides easy access for dual-enrollment students as well as students attending events at another eduroam institution.
- .10 cents a student per year or \$400 minimum if the institution is smaller than 4000 students.
- Contact eduroam@more.net for more information

Akamai SIA (Secure Internet Access)

- Secure web gateway
- Millions of malicious DNS sites blocked
- Used by federal government (Center for Internet Security)
- Malicious Domain Blocking & Reporting (MDBR) is no longer offered free of charge by MS-ISAC
- SIA IS the MDBR+ service offered by MS-ISAC, only less expensive through MOREnet – *Real-time* blocking and reporting of malicious domains.
- \$5.28 per FTE annually; contact security@more.net

**Note: Should you have any questions, our security team (security@more.net) or LAN services/network consulting team (NC@more.net) will be happy to assist you!
